

CHAMPIONSHIP EXCURSIONS GUIDELINES

The Host State must organise an excursion for all School Sport Australia Championships.

Member bodies hosting School Sport Australia Championships should consider the following guidelines when planning excursions:

- Excursions during School Sport Australia Championships must be attended by all championship participants, including team officials.
- Excursions are expected to contain cultural, historical or educational aspects and reflect the area the students are visiting.
- Excursion venues/activities should, where possible, be at reasonable cost and within a reasonable distance from the Championship venue.
- Details of the excursion venue and costs should be included in the *Preliminary Information Bulletin*. Excursions involving water based activities must be advised in this bulletin.
- Preferably, any excursion should involve attending a venue or participating in an activity that students would not normally be able to participate in at home.
- Excursions should be scheduled for a minimum of a half day.
- Where possible, all participants should attend the same excursion at the same time irrespective of age groupings.
- Where lunches are to be provided during an excursion, the costs must be included in the Championship budget
